Bill Semple, Freeland, spoke of his serious concern about infractions of land use, permits, etc. going on without a proper enforcement policy. He felt that the citizens should not have to pay for that enforcement, but rather the person who has violated the permit and should be at no cost to the taxpayers. Mr. Semple stated he would like to see something done about enforcement provisions this year.

Hank Hendricson, Freeland, agreed with the recommendation to establish new and/or revised county ordinances pertaining to land use. He felt that in regard to the matter mentioned on Camano Island about the proposed timber sale, that provisions for "sensitive lands" classification would establish watersheds, aquifers, etc., and would involve DNR with the County on an action basis instead of a reaction basis. He noted perhaps a study was needed to determine what additional ordinances are needed and what ordinances needed to be revised.

There being no further business to appear before the Board at this time, the meeting adjourned at 3:30 p.m., to meet in Regular Session on 4 August 1980 at 9:30 a.m.
