DATED this 23rd day of August, 1993.

BOARD OF COUNTY COMMISSIONERS
ISLAND COUNTY, WASHINGTON

DWAIN A. COLBY, CHAIRMAN
WILLIAM L. McDOWELL, COMMISSIONER
J. MICHAEL SHELTON, COMMISSIONER

ATTEST: ART HYLAND
County Auditor & Ex-Officio
Clerk of the Board

The action proposed by this resolution has been reviewed and found to meet the current Island County Zoning and Land Use Statutes.

LARRY KWARSICK
Planning Director

**HEARING HELD: RESOLUTION #C-73-93 IN THE MATTER OF JUVENILE DIVERSION SERVICES FEES**

A Public Hearing was held at 3:15 p.m. as scheduled and advertised, to consider the matter of Resolution #C-73-93 in the matter of Juvenile Diversion Services Fees, previously discussed and reviewed August 2, 1993 and July 26, 1993.

No comments for or against by any member of the public.

Commissioner Shelton moved that the Board adopt Resolution. Motion was seconded by Commissioner McDowell.

Art Hyland, Auditor/Clerk of the Board, noted it was not particularly clear as to what the fees would be.

The Chair noted that the fees established are to be equitable and on a sliding scale; those who cannot afford are not required to pay; fees have to come before the Board in open public session to be adopted.

Commissioner Shelton added that the fees were to be established to cover the cost of administration and operation of juvenile diversion services, some of those diversionary services already established in price.

By unanimous motion, the Board added to the "Now Therefore Be It Resolved" paragraph as a final sentence, the following language "fee structure shall be adopted by the Board of Island County Commissioners prior to implementation". Motion as amended, carried unanimously.

STATE OF WASHINGTON, COUNTY OF ISLAND
BOARD OF ISLAND COUNTY COMMISSIONERS

IN THE MATTER OF JUVENILE )
DIVERSION SERVICES FEES ) C-73-93

WHEREAS, Island County is required by law to provide diversion services for juveniles accused of certain offenses; and

WHEREAS, the Island County diversionary unit incurs expenses in administering the juvenile diversion program; and

WHEREAS, the county legislative authority is authorized by Chapter 171, Session Laws of 1993, to establish fees to cover the costs of the administration and operation of diversion services provided under RCW 13.40, which chapter also requires the parent or legal guardian of a juvenile who receives diversion services to pay for the services based on the parent's or guardian's ability to pay;

NOW, THEREFORE, BE IT RESOLVED by the Board of Commissioners of Island County that the Juvenile Court Administrator shall establish fees to cover the costs of the administration and operation of diversion services provided under RCW 13.40, and that the parent or legal guardian of a juvenile who receives diversion services shall pay for the services based on the parent's or guardian's ability to pay. The Juvenile Court Administrator shall develop a fair and equitable payment schedule; provided, however, that no juvenile who is eligible for diversion services as provided under RCW 13.40 may be denied diversion services based on an inability to pay for the services. The fee structure shall be approved and adopted by the Board of County Commissioners prior to implementation.

BE IT FURTHER RESOLVED that the effective date of the enforcement of this resolution shall be July 25, 1993.

ADOPTED this 23rd day of August, 1993.

BOARD OF COUNTY COMMISSIONERS
ISLAND COUNTY, WASHINGTON

Dwain Colby, Chairman
William L. McDowell, Member
J. Michael Shelton, Member

APPROVED AS TO FORM:
William H. Hawkins
Prosecuting Attorney

ATTEST: Art Hyland, Auditor
and Ex-Officio Clerk of the Board

**MEETING HELD ON ORDINANCE C-66-93-AMENDMENTS TO ICC 13.03A, MINIMUM STANDARDS FOR WATER WORKS, AND ICC 11.01 LAND DEVELOPMENT STANDARDS REGARDING UPDATES AND FIRE FLOW REQUIREMENTS**

A Public Meeting was held for the purpose of considering proposed Ordinance #C-66-93, amendments to Island County Code 13.03A, Minimum Standards for Water Works, and Island County Code 11.01, Land Development Standards, regarding updates and fire flow requirements.

Jim Hossley, Engineering Department, Surface Water Section, summarized proposed changes, to delete fire flow requirements from ICC 11.01 and place same into ICC 13.03A, and adopt some modifications to ICC 13.03A as follows:

> Proposed Change (page 18) residential fire flow. Lots smaller than 1-1/2 acres would be required to provide fire flow, but water systems serving 10 or more lots will be required to provide fire flow. For any new or expanding water system serving 9 or fewer lots, provisions include looking at 3 different parcel sizes. If 9 or fewer lots and all lots larger than 2-1/2 acres, fire flow would not be required. If lots are less than 2-1/2 acres fire flow would be required by the water system. Included, however, is a provision that if all lots are at least greater than 1 acre in size and any of the lots smaller than 2-1/2, fire flow would not be required if each lot can be shown to have a setback for building structures of 50' or more, plus defensible perimeter. If the 50' separation cannot be met then alternatives to include fire sprinklers or fire resistant walls may be considered as an option.
>
> If water system is to serve any parcels smaller than 1 acre and they do want to have a water system that provides fire flow storage, those lots smaller than 1 acre would be restricted to having houses not exceeding two stories, improved fire resistant roof, with options of one of three
>
> Items: (1) fire sprinkler system; (2) 50' or greater separation from adjacent structures; or (3) fire resistant walls.
